**Cytologic Alterations at Corneal-ptyerygium and Conjunctival-limbic-ptyerygium interfaces** Moraes-Filho, MN; Ferreira, N; Barros, JN; Barbosa-Júnior, JB; Freitas, D.

**Purpose:** To evaluate cytologic alterations at corneal-ptyerygium and conjunctival-limbic-ptyerygium interfaces by impression cytology

**Methods:** Primary ptyerygium from 22 eyes were submmited to 3 impression cytology filters as designed at fig. 1 (in progress). Cytologic analysis were made at Ophthalmology Laboratory from Federal University of São Paulo (LOFT) by padronized methodology and compared to anatomopathology reports.

**Results:** In progress.

**Conclusion:** In progress
