

**X RESEARCH DAYS
DEPARTMENT OF OPHTHALMOLOGY
2008, DECEMBER 12-13**

AWARDS 2008

PRÊMIO “RUBENS BELFORT MATTOS”

*Staining affinity to intraocular membranes of new dyes for ocular surgery – **Eduardo Buchele Rodrigues***

PRÊMIO “PÓS-GRADUAÇÃO EM OFTALMOLOGIA”

*Effects of copaxone in the nerve fiber layer thickness and retinal function in diabetic patients after panretinal photocoagulation, a double-masked randomized clinical trial – **Somaia Mitne***

PRÊMIO “PÓS-GRADUAÇÃO EM CIÊNCIAS VISUAIS”

*Follow-up of visually evoked potential in non-affected carriers from an extensive Brazilian Leber Hereditary Optic Neuropathy pedigree – **Paula Yuri Sacai***

PRÊMIO “R1”

*Anterior chamber depth during hemodialysis – **Francisco Rosa Stefanini***

PRÊMIO “R2”

*Mechanisms of hemorrhage after anti-VEGF therapy in ophthalmology – **Marcelo Hosoume***

PRÊMIO “R3”

*Effects of Botox versus Prosigne in patients with blepharospasm and hemifacial spasm – **Carolina Isolani Pereira***

*Effects of pH, osmolarity and temperature on apoptosis and toxicity in retinal cells: an in vitro study – **Elaine de Paula Fiod Costa***

PRÊMIO “JOHNSON & JOHNSON” PARA O MELHOR TRABALHO EMLENTE DE CONTATO, REFRAÇÃO E CÔRNEA”

*Comparison among scleral, corneal and amniotic membrane grafts to restore scleral thinning secondary to pterygium surgery with betatherapy – **Charles Costa Farias***

Honorable Mention 2008

*Infliximab treatment reduces angiogenesis in choroidal neovascularization in animal model. Correlation with the glycosaminoglycans expression – **Caio Vinicius Saito Regatieri***

*The role of NF-kB and bortezomib in uveal melanoma – **Katyanne Dantas Godeiro***

Vitreous dynamics – Octaviano Magalhães Junior
